

NAF's Academy of Hospitality & Tourism helps students chart career paths in one of the world's largest industries, from hotels to sports, entertainment, and event management.

### HISTORY AND IMPACT

The NAF Academy of Hospitality & Tourism (AOHT) was launched in 1987 with support from Marriott International and the American Express Foundation, with locations in New York City and Miami. In the 2017-2018 school year, there were 89 Academies of Hospitality & Tourism in 40 districts across 21 states including DC and the US Virgin Islands serving 12,811 students. By providing an education that emphasizes both customer service and the mastery of tangible skills, like using reservation software, AOHT students are prepared to meet the needs of this growing industry.

### CURRICULUM

AOHT curricula engages students through a series of career exploration courses. All courses use project-based learning techniques with an emphasis on strengthening literacy, project management, leadership, and team building skills while also fostering creativity and innovation. Curriculum is vetted by industry professionals to ensure that the content is current and relevant.

AOHT courses cover the principles of Hospitality & Tourism, customer service, geography, hospitality marketing, sports, entertainment and event planning, and sustainable tourism. Academies may include state-level certifications, special projects, or early college programs. The AOHT curriculum has received industry validation from the Global Travel and Tourism Partnership. Academy students complete at least four NAF courses by graduation.

### COLLEGE AND CAREER READINESS

In addition to studying career-focused curriculum and working on collaborative projects, AOHT students gain critical career knowledge through a series of work-based learning activities including job shadowing, mock interviews, résumé writing workshops, culminating with a paid internship. Local business partners work with educators to provide these opportunities to round out students' education. By serving on advisory boards and as mentors, business partners make the important real world connection for students, helping them understand the connection between their education and future success.

NAFTrack Certification, NAF's student certification assessment system, validates successful course completion, projects, and internships. By receiving a passing score on end-of-course exams and satisfactory scores on culminating project and internship assessments, students earn NAFTrack Certification signifying to post-secondary institutions and employers that they are both college and career ready. With this credential, graduates can benefit from NAFTrack Certified Hiring, a new initiative in which many of America's top companies commit to give special consideration to these graduates for job opportunities and other career support.

Graduates of NAF academies complete college faster, earn more, and have stronger ties to their communities than their peers. NAF's 97% senior graduation rate is a testament to this effort.

The travel and tourism industry is one of the world's largest industries with a global economic contribution (direct, indirect and induced) of over 7.6 trillion U.S. dollars in 2016, according to Statista. The industry had the highest job openings rate in May, at 4.9 percent, followed by professional and business services at 4.8 percent.
