

NAF

**Katherine Blasik Distinguished  
& NAF Model Academies**

2022

## DEAR NAF NETWORK MEMBERS,

As we look back over the last two years, we are so inspired by how adaptive, resilient, and determined our academies, educators, and students were in a time of extended uncertainty. Resounding themes we continued to witness were an unwavering passion and tenacity for leaning in and finding alternative ways to deliver opportunities. From our teachers to our students, corporate partners and supporters, as well as our staff members, all rose to the occasion and helped to drive our work forward.

NAF's annual Academy Assessment measures an academy's strengths and areas for improvement in implementing NAF's results-driven educational design that prepares students to be college, career, and future ready. The highest scores on the assessment are NAF Model academies. A subset of those academies, which achieve additional thresholds, are recognized as Katherine Blasik Distinguished, named after NAF's Vice President of Research and Evaluation, who passed away in 2019. Under Dr. Katherine Blasik's leadership, NAF's continuous improvement cycle and academy assessment system became what it is today – an essential measurement tool to help academies become the strongest that they can be.

In 2021-2022, NAF proudly announced that more than 200 academies reached Model quality level and 181 reached Katherine Blasik Distinguished quality level. Of these, 157 academies have reached this level more than once and 24 are new to the roster.

This commitment to quality and successful outcomes serve as a reminder that we can supply the highest level of quality experiences to benefit our students. While we must not forget the obstacles that the pandemic posed for our network, we applaud our Katherine Blasik Distinguished and NAF Model academies for always putting students first – congratulations on this tremendous accomplishment!

This brochure is a testament to those academies that have gone above and beyond and have acted as exemplars to the entire network. Read on to find out how this year's Katherine Blasik Distinguished academies have prepared students for their next steps after high school – no matter where their paths may lead.

We hope that you feel a spark of inspiration from the promising practices on the pages ahead that reflect our academies' stories of excellence – helping NAF to make the boat go faster toward greater impact for more of the students who need it most.

## WITH GRATITUDE,

**LISA DUGHI**  
NAF CEO

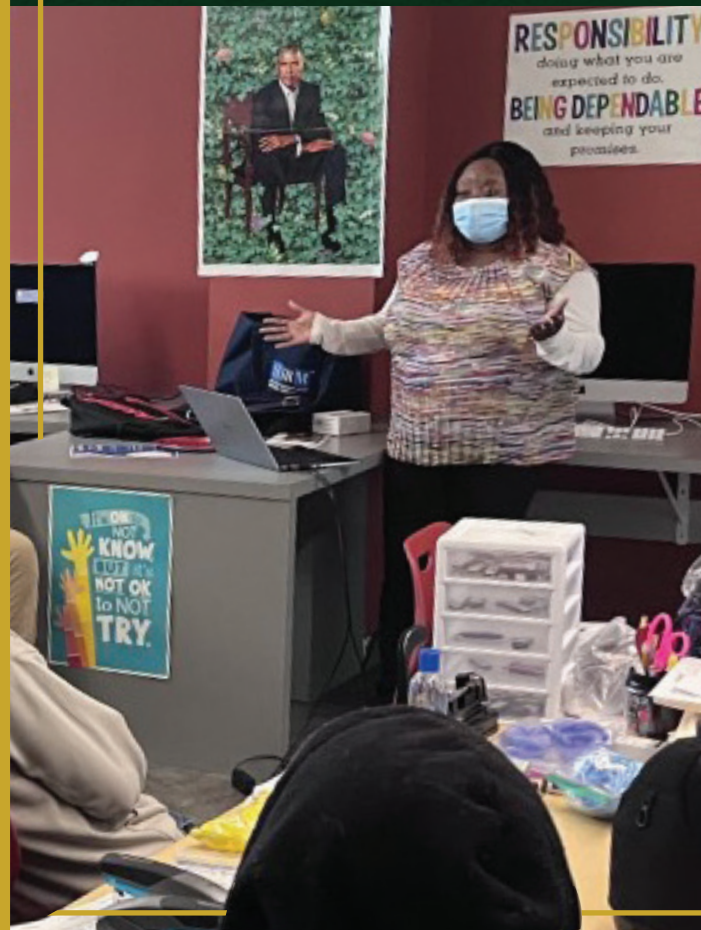

# BEST PRACTICE SPOTLIGHT

## COMMUNITY IMPACT

“Our strong relationships, flexibility, and commitment to serving the entire student population have prepped our graduating class for post-secondary success.”

**H.D. WOODSON STEM HIGH SCHOOL,  
ACADEMY OF INFORMATION TECHNOLOGY**  
WASHINGTON, DC

**SPRINGBROOK HIGH SCHOOL, ACADEMY OF INFORMATION TECHNOLOGY**  
SILVER SPRING, MD

Students in Springbrook’s Academy of Information Technology are taught that they have a genuine capability to excel in technology. We build tomorrow’s leaders, by offering a wide variety of courses in programming and engaging extracurricular activities. For example, our AOIT Makerspace joined forces with our Science Department to create projects that won first and second place at the state Math, Engineering, Science Achievement (MESA) competition. Every year, our students also plan and facilitate a two-day coding event, called Brook Codes, that has yielded a dual-enrollment agreement with a local university. Over 90% of our students have an internship with agencies such as the NSA, FDA, and the Johns Hopkins Applied Physics Lab.

**MONACHE HIGH SCHOOL,  
ACADEMY OF MULTIMEDIA & TECHNOLOGY**  
PORTERVILLE, CA

A passionate staff that devotes themselves to the academy, supported by a dedicated advisory board that has provided unwavering guidance, have moved the Multimedia & Technology Academy to the next level – Katherine Blasik Distinguished. Our students have worked with the local community to develop media projects and have received customer feedback to help them improve.

**“Creativity and culture  
open doors to success  
for our students.”**

*Katherine Blasik Distinguished & NAF Model Academies*

**H.D. WOODSON STEM HIGH SCHOOL,  
ACADEMY OF INFORMATION TECHNOLOGY**  
WASHINGTON, DC

With the pandemic hindering all academies nationwide, our students came back to the program ready to learn and adjust to the new normal. They bounced back from virtual learning to gaining knowledge from upperclassmen. For example, our students were able to work with local college IT professionals to determine their future aspirations. We believe that when students are ready to leave our school, they will be the change agents that our world needs.

# BEST PRACTICE SPOTLIGHT

## WORK-BASED LEARNING

“We foster an environment that supports scholars to succeed in college and beyond — while becoming successful and productive contributors to society.”

**FRIENDSHIP COLLEGIATE ACADEMY,  
ACADEMY OF HEALTH SCIENCES**  
WASHINGTON, DC

**CORAL REEF HIGH SCHOOL, ACADEMY OF HEALTH SCIENCES**  
MIAMI, FL

The instructors teaching our academy students are current and former health care workers, who bring real-life experiences into the classroom. Young people organize blood drives, help teach CPR classes to other students and community members, and practice patient care skills in their classes. For example, our nursing assistant students participate in clinicals at Jackson South Medical Center and shadow doctors and nurses working with patients, and our emergency medical responder students participate in real-life simulations to apply the life-saving skills that they would use in emergencies.

**BLANCHE ELY HIGH SCHOOL,  
ACADEMY OF FINANCE**  
POMPANO BEACH, FL

Our academy focuses on preparing every student to be college and career ready, by ensuring that they learn financial literacy skills while in high school and encouraging them to make sound financial decisions. Young people engage in enriched cross-curricular learning activities that allow them opportunities to collaborate and gain knowledge about financial products, services, and more. This year, students were tasked with a community service initiative — helping under-resourced individuals in our community — and created care packages with essential items. Ultimately, this project enabled them to use their critical thinking and decision-making skills, while building character, confidence, and fostering a sense of belonging.

**“Our Academy of Finance  
prepares students for  
a healthy financial future!”**

**DUNCAN POLYTECHNICAL HIGH SCHOOL,  
ACADEMY OF HEALTH SCIENCES**  
FRESNO, CA

Students can earn several industry certifications, including: Certified Nursing Assistant (CNA), OSHA 10 for Health, Basic Life Support for Healthcare Providers, Bloodborne Pathogens Training, and Functional Movement Screening, and our graduates can go straight to work as an entry-level CNA. We’ve had internships and experiences offered at the Veterans Hospital and multiple care facilities that our young people have participated in during their academic careers. Students can also earn college credit that can be applied to

programs locally (Fresno City and Fresno State), as well as courses that will transfer to the California State University (CSU) and the University of California (UC) systems.

## FRIENDSHIP COLLEGIATE ACADEMY, ACADEMY OF HEALTH SCIENCES WASHINGTON, DC

We offer a variety of work-based learning opportunities to prepare our scholars for college and careers in the health sciences field. Our students learn skills that are commonly used in the industry while still in high school. They are exposed to many different careers and college majors and are mentored by industry professionals to help make informed choices about their next steps. Additionally, young people have the opportunity to research and visit top colleges that offer majors in the health sciences field to help support their decision-making.

## GOLDEN GATE HIGH SCHOOL, ACADEMY OF ENGINEERING NAPLES, FL

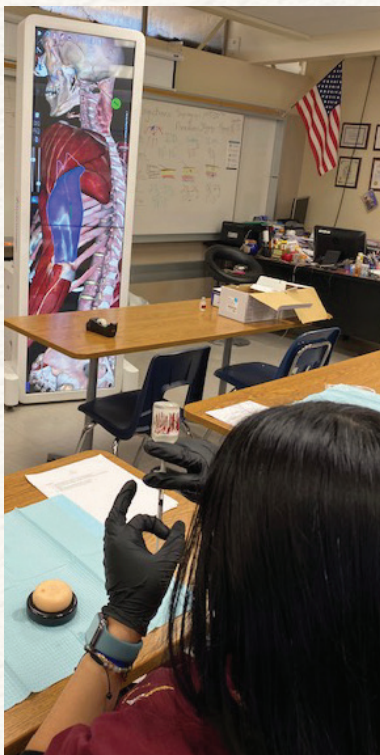

Our Academy of Engineering strives to make as many opportunities available to our students as possible, through a variety of hands-on, collaborative, and activity project-based approaches to learning. They develop skills in technical documentation, as they learn 3D computer modeling using CAD applications, build code, produce precise 3D printed prototypes, and test autonomous robots. Every year, students also participate in a solar go-kart race and VEX Robotics competition. The solar go-kart project tasks young people with converting gas golf carts to solar powered, as they learn the importance of renewable energy. Completed go-karts are used in competitions with other schools from Southwest Florida.

## GOLDEN GATE HIGH SCHOOL, ACADEMY OF FINANCE NAPLES, FL

Our students have access to higher-learning opportunities for hands-on educational experiences in the areas of check writing, cash counting, and various accounting software — such as QuickBooks. They also learn about calculating payroll, completing tax returns, marketing, stock market simulation trading, and entrepreneurship. These lessons are inclusive and frequently accompanied with work-based learning activities, including mentorship, guest speakers, field trips, and competitions.

## GLADSTONE HIGH SCHOOL, ACADEMY OF HEALTH SCIENCES COVINA, CA

Graduates leave our program with skills gained from real-world experiences and high-quality work-based learning — demonstrated through internships with our partners at City of Hope, Kaiser, Emanate Health, Keck, and Charter Hospice. These experiences in the medical field provide early exposure for students and offer them a guided path for the future, so that they can decide what careers they would like to pursue. Additionally, students receive pre-certification in a variety of areas of medicine, ensuring they are highly marketable

upon graduation. Our academy delivers the necessary knowledge for students to become certified by the state of California, as medical assistants, and allows them to work at the clinical level with physicians, PA's, and nurse practitioners.

## HARTFORD PUBLIC HIGH SCHOOL, ACADEMY OF ENGINEERING & GREEN TECHNOLOGY HARTFORD, CT

Our collaboration with Raytheon Technologies, ReadyCT, and the Gawlicki Family Foundation have helped us to develop a well-rounded work-based learning continuum and to provide paid internships for over 100 students. Our partnerships with Goodwin University and the CT Department of Transportation allow us to provide dual-enrollment opportunities and industry certifications. Students have weekly college and career readiness workshops to prepare them for internships, with consulting from our work-based learning coordinator, and participation in future readiness programming all year long. Guest speakers, worksite tours, networking events, student ambassador programs, a robotics club (and much more), make this pathway rich in terms of opportunities and experiences for our students. We are grateful for our partnership with Raytheon Technologies, as they have been a key partner to this work.

## JOHN A. FERGUSON SENIOR HIGH SCHOOL, ACADEMY OF EDUCATION MIAMI, FL

The Academy of Education offers a rigorous hands-on learning program to students interested in becoming future educators. Student teachers receive certification through the Department of Children and Families and the Council for Professional Recognition, where they are awarded their National Child Development Associate. Education students take part in work-based learning experiences — in our on-site preschool program and in nearby feeder-pattern elementary and middle schools. Students write and carry out developmentally appropriate lesson plans with the children and plan events and activities throughout the school year.

**LELY HIGH SCHOOL,  
ACADEMY OF HEALTH SCIENCES**  
*NAPLES, FL*

Throughout the school year, students are exposed to a plethora of work-based learning activities and career exploration labs — helping to unpack the vastness of the medical field and all the different careers available. Through hands-on activities, young people have gained a better understanding of a medical professional's day-to-day responsibilities. They also have participated in career fairs, mock interviews, job shadows, and career readiness conferences. As a result, the academy has recent graduates actively working in local hospitals.

***“We encourage our students to take advantage of the opportunity to receive industry certifications in the medical field, to help set them up for future success.”***

**NORTH FORSYTH HIGH SCHOOL,  
ACADEMY OF HEALTH SCIENCES**  
*WINSTON-SALEM, NC*

Students are continually immersed in intensive work-based learning opportunities that progress toward the completion of paid internships. Through the partnership with our advisory board, students regularly participate in job shadows, mock interviews, mentor programs, and career fairs. We treat our students as assets and push students to develop their leadership and professional skills, so that our academy can establish workforce pipelines in our community and prepare students to thrive in their post-secondary endeavors.

**PORTERVILLE HIGH SCHOOL, ACADEMY  
OF ENERGY & RESOURCE OCCUPATIONS**  
*PORTERVILLE, CA*

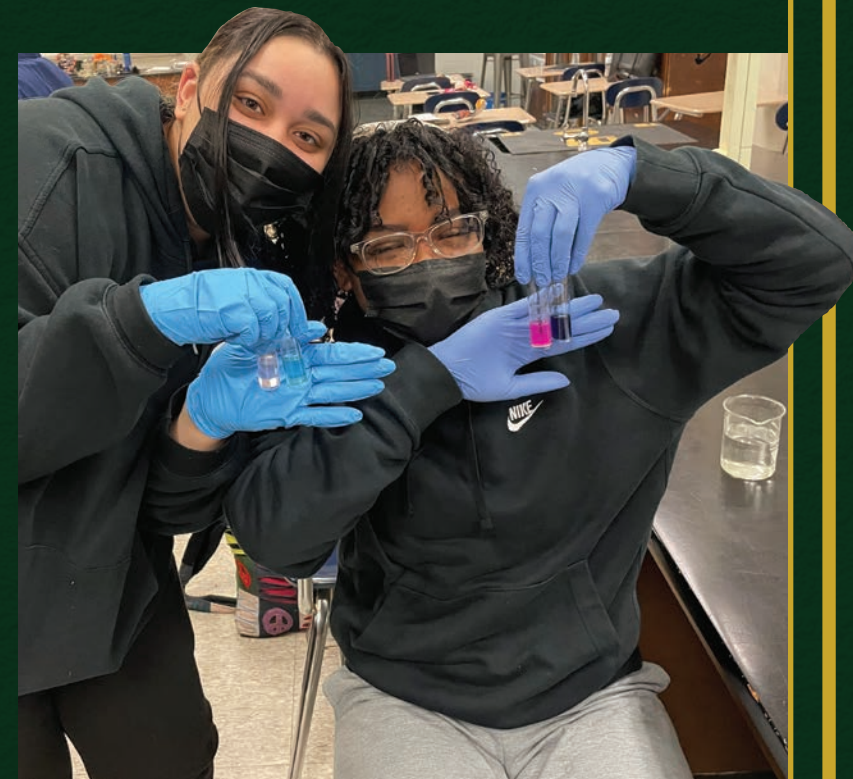

A key accomplishment that has helped propel the AERO academy to Katherine Blasik Distinguished quality level, has been offering all students industry certifications — including OSHA 10, NCCER, FORD, and Solar Energy International. The AERO Academy offers certifications at each grade level (9-12). Academy students complete meaningful solar and construction internships in Porterville and the surrounding community with contractors and non-profits that offer students profound real-world experiences.

## BEST PRACTICE SPOTLIGHT

### BECOMING COLLEGE READY

“We have always looked for ways to expose students to college and career readiness — it truly takes a village to raise our students.”

**NEW BRITAIN HIGH SCHOOL,  
ACADEMY OF HEALTH & SCIENCES**  
*NEW BRITAIN, CT*

**JAMES J. FERRIS HIGH SCHOOL, ACADEMY OF FINANCE**  
*JERSEY CITY, NJ*

Our academy extends far beyond the classroom. Through volunteering, mentoring, job shadowing, and paid internships, students are given the opportunity to serve their community and experience the workplace. These events help them acquire the technical and communication skills they need to succeed in high school and be college and career ready. Additionally, students recognize their unique influence on the world and become changemakers. One prime example of this is the creation of a food pantry, that was planned for and developed, and is run directly by our young people.

We strive to prepare students for college and beyond, by training students to use industry tools to provide them with an advanced technological skillset. We also offer various student clubs to promote leadership, team building, and career development skills. For example, Girls Leading Our World is a girl-to-girl mentoring program designed to amplify the voices of females, and our VEX Robotics team members

collaborate and use engineering principles to design, build, program, and compete against other teams.

We have partnered with Florida International University and Miami Dade College, touring their engineering campuses to gather information on their programs. Other offerings with initiatives such as Engineering Tomorrow, the Teach-a-Thon program, and the Phillip and Patricia Frost Museum of Science, allowed students to take part in engineering labs, virtual lessons, and worksite tours.

**DR. HENRY A. WISE JR. HIGH SCHOOL, ACADEMY OF FINANCE**  
*UPPER MARLBORO, MD*

Through our strong academy leadership, we demonstrate excellence in our commitment to students through technology integration, while offering industry certifications through work-based learning experiences. This allows us to leverage many meaningful opportunities for student growth and achievement based on the NAF and CTE curriculum models.

***“Our dedication to collaboration, communication, and commitment enhances our students’ abilities to become the next generation of business leaders.”***

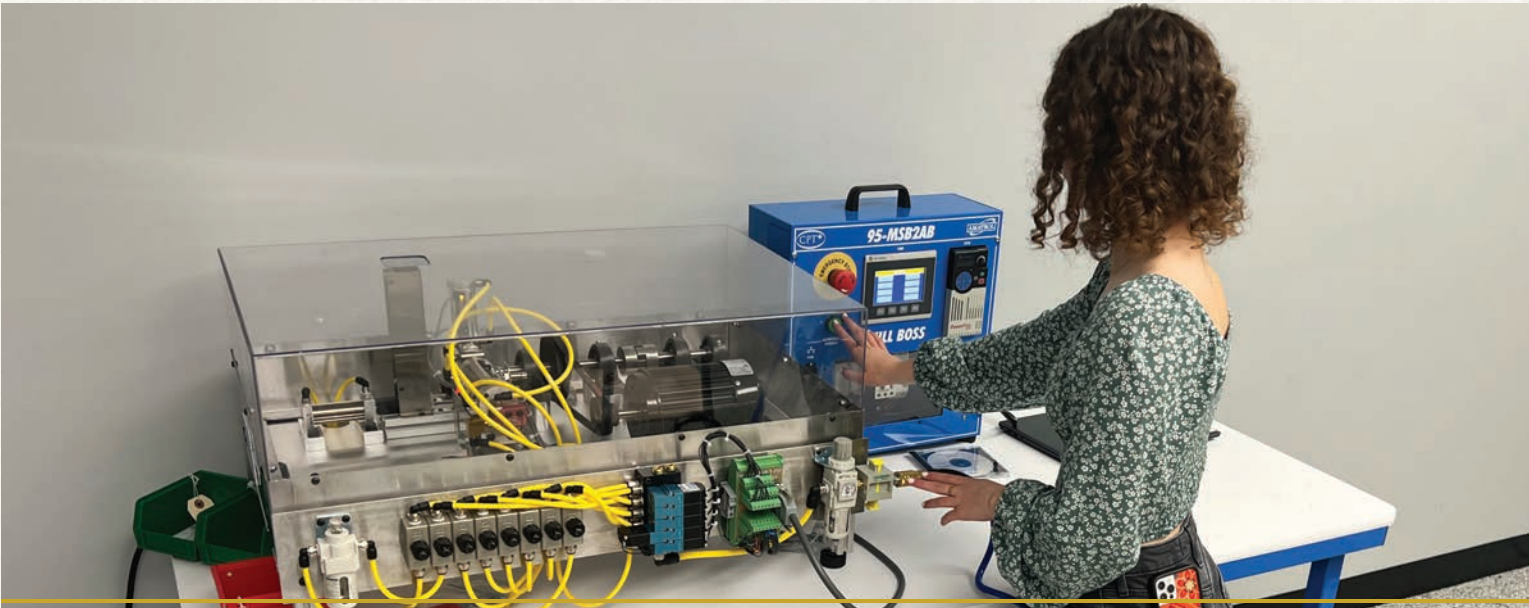

**NEW BRITAIN HIGH SCHOOL, ACADEMY OF HEALTH & SCIENCES**  
*NEW BRITAIN, CT*

Students have given back, by participating in the annual breast cancer health initiative race in our local park. We also have partnerships with the Hospital of Central Connecticut, the Hospital for Special Care, New Britain EMS, and St. Francis Hospital. Students have completed CPR and first aid trainings, job shadows and internships, clinical hours, and more. They have also participated in mock interviews and career fairs, with a focus on opportunities in the medical field. Additionally, we have a special partnership with the University of Connecticut, where students get the opportunity to earn college credits, while taking UConn Early College Experience (ECE) courses.

**SUNSET HIGH SCHOOL, ACADEMY OF FINANCE**  
*DALLAS, TX*

Collaborations between core classes and creating a culture of high expectations in college and career readiness helped our academy achieve Katherine Blasik Distinguished level. Our teachers were active collaborators on interdisciplinary projects and the bi-weekly meetings between students and teachers greatly enhanced the likelihood that all parties remained on track to achieve their goals. Our academy has also made connections with organizations outside of our high school -- such as Frost Bank, the local police force, UNT Dallas, Just Keep Livin, and the Oak Cliff Chamber of Commerce — as we strive to continue to expand our presence in the community.

**NEW BEDFORD HIGH SCHOOL, ACADEMY OF INFORMATION TECHNOLOGY**  
*NEW BEDFORD, MA*

Supported by a state-of-the-art robotics lab, our students regularly engage in hands-on projects connected to robotic automation, video production, drone technology, and advanced programming and coding activities. The AOIT Advisory Board is a highly engaged committee of industry professionals comprised of nearly 20 members from a broad range of industries, including television and radio stations, post-secondary institutions, and other programming and video-based companies. In an applied learning environment, young people are sharpening problem-solving skills and practicing teamwork to accomplish their goals.

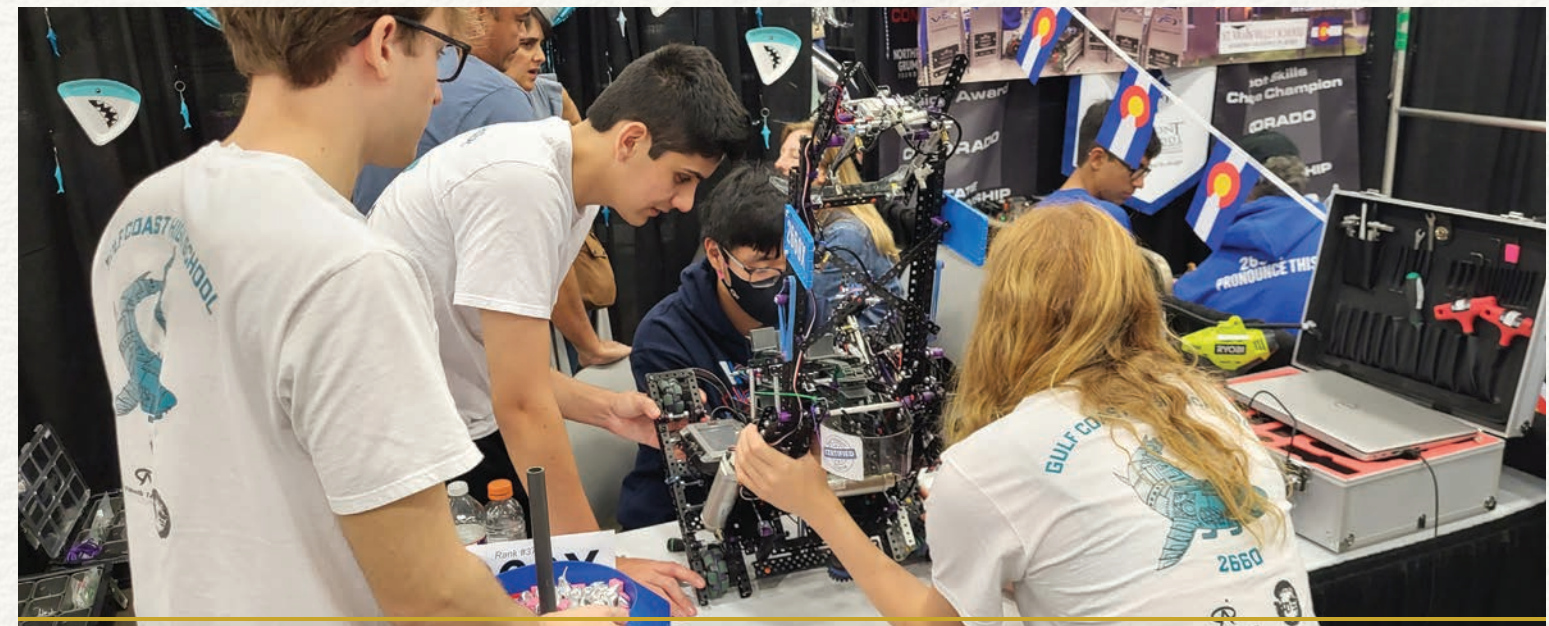

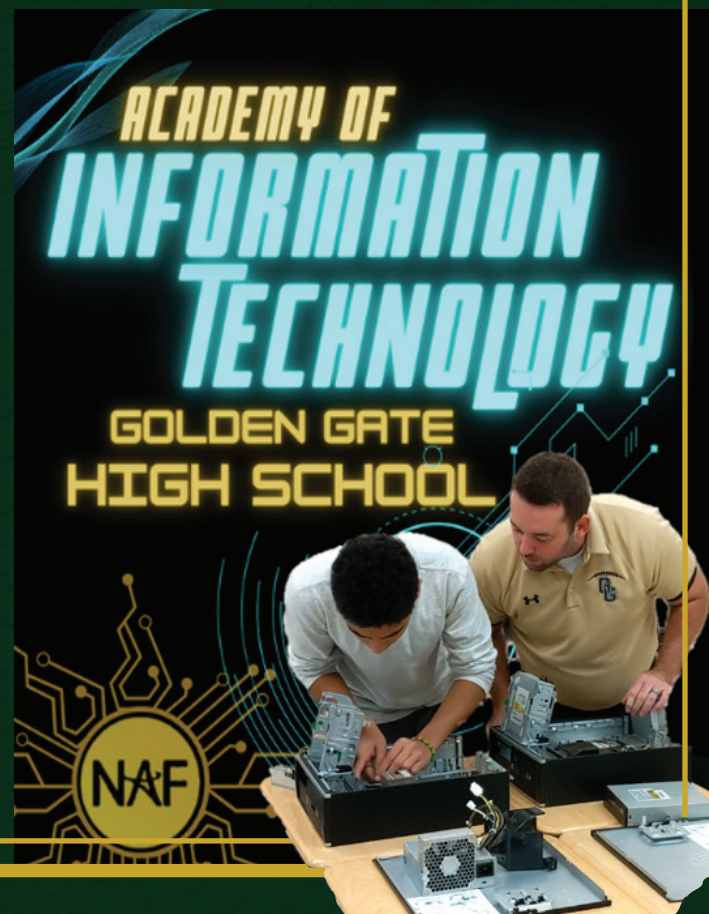

# BEST PRACTICE SPOTLIGHT

## LEVERAGING TECHNOLOGY IN EDUCATION

“Technology will be the vehicle of positive change for the future. Students of today will be the ones in the driver’s seat, deciding what that future will look like.”

**GOLDEN GATE HIGH SCHOOL,  
ACADEMY OF INFORMATION TECHNOLOGY**  
NAPLES, FL

**GULF COAST HIGH SCHOOL, ACADEMY OF ENGINEERING**  
NAPLES, FL

Our district support staff is invaluable to our success. They find ways to support us not only financially, but as well as offering advice for managing our advisory board and remaining organized. Thanks to their support, our robotics team became the first Collier County team to win the VEX VRC State Tournament and, because of this, we were able to compete at the World Championship in Dallas, TX.

**MIAMI BEACH SENIOR HIGH SCHOOL,  
ACADEMY OF INFORMATION TECHNOLOGY**  
MIAMI BEACH, FL

Our Academy of Information Technology engages students, by using the curriculum as a lens through which everyday problems are analyzed, approached, and solved. Students learn how to think critically, develop valuable skills, capitalize on opportunities for industry certifications in computer software, complete paid summer internships, are awarded scholarships, and more. This year, students also participated in many STEAM initiatives — including FIRST Robotics, CyberPatriot, the Youth Fair Student Exhibitor Program, and Code/Art — enabling the academy to expand relationships with key stakeholders in the IT industry.

**GOLDEN GATE HIGH SCHOOL, ACADEMY  
OF INFORMATION TECHNOLOGY**  
NAPLES, FL

Through immersive hands-on learning, cross-curricular activities, and a variety of work-based learning experiences, students are able to experience how information technology has become a critical component of almost every industry in today’s workforce.
